

GDP - Feature #1

Should multiread return an error for an empty log?

06/23/2016 11:47 AM - Eric Allman

Target version:	
Description As it stands, multiread on an empty log returns a 404 error (since it's trying to read a record that doesn't exist). It could instead an empty set with no error. Which is the better behavior?	

History

#1 - 06/29/2016 08:39 AM - Eric Allman

- Tracker changed from Bug to Feature
- Project changed from 2 to GDP
- Category deleted (1)

#2 - 08/23/2016 03:25 PM - Eric Allman

- Priority changed from Normal to Low

#3 - 03/20/2019 04:56 PM - Eric Allman

- Status changed from New to Closed

This got fixed in GDPv2.
