

GDP - Bug #27

Inconsistency in location of secret keys for mqtt-gdp-gateway

07/28/2016 11:27 AM - Eric Allman

Status:	New	Start date:	07/28/2016
Priority:	Low	Due date:	08/12/2016

Target version:			
Description			
In gdp/gdp_crypto.c the search path for reading secret keys is:			
<pre> "." ":KEYS" "~/ .swarm/gdp/keys" "/usr/local/etc/swarm/gdp/keys" "/etc/swarm/gdp/keys"</pre>			
However, the startup scripts for mqtt-gdp-gateway install new keys in /etc/gdp/keys. This inconsistency should be fixed. Note that newer versions of the mqtt-gdp-gateway startup script explicitly name the keys directory, so this bug doesn't exhibit itself; nonetheless it should still be fixed.
