

GDP - Bug #38

Resource exhaustion after repeated router restarts

08/08/2016 08:22 AM - Eric Allman

Status:	Closed	Start date:	08/08/2016
Priority:	Normal	Due date:	08/15/2016

Target version:			
Description			
GDP clients (including gdplogd) attempt to create a new router connection if the old one goes away. The GDP library leaks one file descriptor each time this is done. Normally this would be rare, but the current gdp_router_click failure mode (accepting and then immediately closing the connection) causes it to happen frequently.			

History

#1 - 08/08/2016 08:22 AM - Eric Allman

- Status changed from New to Resolved

Fixed in commit:ed4ec0a4.

#2 - 08/09/2016 03:31 PM - Nitesh Mor

- Due date set to 08/15/2016

#3 - 09/07/2016 11:05 AM - Nitesh Mor
